

Bedouin Abi Tamer

Computer Science – Information Technology (IT) – Notre Dame University (NDU)
Zgharta, North Lebanon | Zouk Mkayel, Keserwan | +961 70 454 003 | abitamr.bedouin@gmail.com

AREA OF EXPERTISE

Data Analysis | Data Interpretation | Business Process Improvement | Communication Skills | Risk Mitigation | Working with Community Stakeholders | Problem Solving | Coordination | Detail-Oriented | SQL & Database Management | Financial & Performance Reporting | Software Development Life Cycle (SDLC) | Workflow Optimization | Market Research & Competitive Analysis

EXPERIENCE

Digilab Solutions | Full Stack Developer (Web & Mobile)

February 2026 – Present

- Developing and maintaining web and mobile applications using React, React Native, and Node.js.
- Designing and managing databases (PostgreSQL, SQL), ensuring performance, scalability, and data integrity.
- Building responsive front-end interfaces and RESTful APIs to deliver full stack, cross-platform solutions.
- Integrating AI-powered tools and features into applications to enhance functionality and speed up development workflows.
- Learning and applying cloud deployment practices, deploying the team's website on AWS.
- Owning the GitHub repository and managing CI/CD pipelines for streamlined, reliable releases.
- Collaborating with cross-functional teams to deliver scalable, high-quality solutions aligned with business needs.

TSI (IDM, Cablevision, Cyberia) | Technical Call Support

July 2025 – January 2026

- Provided troubleshooting support for Cablevision receivers and Smart Box systems.
- Assisted customers with modem/router setup, Wi-Fi issues, and internet troubleshooting.
- Diagnosed connectivity issues, including slow speeds, DNS failures, and connection drops.
- Logged cases and coordinated with field technicians for resolution.

Eurisko Academy, Adma, Lebanon | Business Analyst

November 2024 – January 2025

- Managed product backlogs and prioritized tasks to align with Agile sprints and project goals.
- Developed Kibana dashboards to deliver real-time insights, improving visibility into performance metrics.
- Analyzed business requirements and translated them into clear functional specifications.
- Conducted data analysis to identify trends, bottlenecks, and opportunities for process improvement.
- Worked closely with developers, QA, and UI/UX teams to ensure alignment with user stories.

North Hospital Center (CHN), Zgharta, North Lebanon | Database Developer

February 2023 – February 2024

- Designed and developed Oracle Forms and database tables, including triggers, sequences, and functions.
- Utilized SQL and PL/SQL to manage and optimize data workflows.
- Ensured data integrity and optimized queries for performance improvement.
- Collaborated with multidisciplinary teams to support technical initiatives.

EDUCATION

Fall 2024 - Computer Science, Information Technology (IT), Notre Dame University (NDU)

2018–2021 - Technical Education, Information Technology (IT), Institute Saint Antoine (ISA), North Lebanon

CORE COMPETENCES

Languages: Arabic (Native), English (Fluent), French (Intermediate)

Programming: Python, C++, PL/SQL, JavaScript, TypeScript

Web & Mobile: React, React Native, Node.js, HTML, CSS

Databases: SQL, Oracle, Oracle Forms, PL/SQL, PostgreSQL

Other: MS Office (Word, Excel, PowerPoint)

EXTRA-CURRICULAR & CERTIFICATES

- 2021–2024 - Member of GDSC (Google Developer Student Club), NDU University
- 2022 - SQL Certificate (SQL, Database Schema and Database Design), Udemy
- 2019 - First Aid Certificate, Lebanese Red Cross
